The Intelligencer:

OFFICE: No. 15 Quiney Street. SATURDAY, FEBRUARY 4, 1871

THE Wellsburg News in its last issue speaks of "this infamous Flick Amendment." Go slow, brother News. This "in famous" device has just been endorsed by the Democratic Legislature.

In the Virginia House of Delegates last Monday the Senate joint resolution, teadering to West Virginia, an arbitration of the debt was passed with the following amendment: by striking out the clause referring to the repeated and unavailing friends (?) of the two defeated gentlemen, sefforts for a settlement and also the clause referring the agreement of the arbitration of the agreement of the arbitration of the settlement and clause the settlement are settlement and clause the sett efforts for a settlement and also the clause requiring the agreement of the arbitrators to be ratified by the Legislatures of the two States. The striking out of the latter clause was disagreed to next day by the Senate.

The other nominees of the caucus, Hon. Charles S. Lewis the aforesaid, who came here to swallow Economo, and was swallowed by

ing preparatory to the campaign of 1872, when they mean to overcome the Repub-

when they mean to overcome the republican majority of thirty-four thousand by the bullet and the dagger of the assassin. The testimony thus far taken by the investigating committee bears out the worst statement of reported outrages in the Carolinas. It is contemplated to make the present investigation as theoryth as the present investigation as thorough as the present investigation as thorough as possible, and to get evidence from all classes of citizens, irrespective of party. Some of the most damaging testimony yet taken as going to show the thorough reign of anarchy in these States, has come from individuals who are either Democrats or independent in politics.

Advice About Business.

It some people in this community would pay as much attention to their own busi-ness as they do to that of their neighbors,

pect. Push on the column, gentlemen, and we'll take pleasure from week to and we'll take pleasure from week to week in keeping the people of Tuscara-was informed as to what you are doing. We notice by the INTELLIGENCER that a rousing railroad meeting was held in Wheeling on Saturday fight last, at which the sum of \$300,000 was pledged to a road from that city to Urichsville. That looks more like business than anything we have yet heard. Whichever of the proposed routes proyes, upon carful survey, to be yet nearl. Winchever of the proposed, routes proves, upon careful survey, to be the most beneficial to the city of Wheeling and secures the assistance proposed, will be the successful route, in our opinion.

In writing you on the zoological produc-tions of our State the other day, I neg-lected to mention that I expected to add to my collection a specimen called "the Jacketed Jerboa," a curious little animal lately brought to light by the Democratic Legislature at Charleston, For the fol-lowing description of the animal Lum in.

The House is not likely, after the exposure that has been made, to concur with the Senate if the resolution is so amended, and the danger is that a disagreement to the resolution will fail, and the award of the Postmaster General thus be allowed to stand. Southern Lawlessuess.

At a meeting of the Southern Republican Association held in Washington Tuesday night, S. L. I should have said that Prof. Johnson and Dr. Moore, of Mason City, were the Dr. Moore, of Mason City, were the opponents of Mr. Lewis for School Superintendent, but are supposed to have been rejected on account of superior fitness, and love for the free school system, on the part of Mr. Lewis, but of this Leannet speak advisedly.

Prussia in India.

The intelligence that among the terms of peace imposed by Prussia on France was the cession of a colony, gave a sign of the expanding of Prussia's smbitton toward a navy, colonies and conquests in other climes, and caused much curiosity as to the direction her aims were now taking. It is now stated that this required French colony is Pondicherry, in sontheastern Hindostan, a possession which will bring Prussia into proximity to the British India Territory. If England is exceedingly jedious because Russia has advanced to within five days' march, of her Indian possessions on the north, what will be her sensations when she sees amother power, as strong and aggressive, and which seems to have coupled with Russia for dividing the world between them, planting herself on the cast, upon her very border?
